- Terry Foley with VIND then gave a report of activities within her organization:
 - Volunteer hours for the month of June were for 3 teams with 940.5 hours.
 - June was very successful with volunteer co-ordination and work completion. The first team completed muck and gut and the second and third teams completed the home.
 - July is extremely busy. There are 3 teams back-to-back with the group in the middle consisting of 21 volunteers.
 - They have completed 1 project through a financial institution with 1 roof remaining having 1 HVAC (heating, ventilation, and air conditioning) needing financial assistance. The financial institution denied the client funding for the bank because it does not have resources to verify the need for the HVAC system. 3 roofs are waiting for approval.
 - There are 23 stick built projects waiting for volunteers to complete.
 - Over 166 mobile homes are registered.
 - They are still receiving an average of 5 new clients per week on stick built homes. Estimates are beginning to be required. For mobile homes, registration for Rebuild Florida continues but it is not publicized. VIND continues assisting those clients who registered with Rebuild Florida through their process.
 - Volusia County released their application for the Community Development Block Grant – Disaster Recovery (CDBG-DR). VIND met with the County's program representatives and VIND's case management is working towards completing applications for victims of Hurricane Matthew.

- Frank Bruno, Co-Chairman, commented that:
 - We were extremely successful with our Hurricane Expo by actually adding to our bank account. Many times, events such as these do not do as well for the first year.
 - We were able to obtain the sales tax certificate for our participating vendors.
 - We have already set the date for our next Expo. It will be 30 May, 2020.
 - We will set the details for the 2020 Expo by the end of December, 2019.

- Jeanne Rademacher with the United Way, brought up the need for our obtaining a Solicitation License through the Florida Department of Agriculture. This is required for any 501(c)(3) group which accepts any donations. This must be renewed every year. Mr. Bruno said that he would take care of this.

- Tom Cisco, with Volusia County Emergency Management said that the County is working on training personnel in various disaster situations now. This includes training in an active shooter situation which many counties have decided not to do because it is very disruptive. Regular emergency training is being done now before any storms actually hit Volusia County.

- Jason Dominguez with United Way spoke next:
 - They are working on up-dating 2-1-1, keeping the information on it as accurate as possible.
 - Mrs. Rademacher commented that the new United Way Director would be glad to attend one of our COAD meetings.

- Warren Greenberg with ARES stated that he is ready to re-start our MYN project as soon as he receives the lists of HOAs, Condo Associations, and Manufactured Home Park Associations.

- Frank Lewandowski with the Church of Jesus Christ said that his group is currently gathering personal data from their total membership in order to be able to reach out to them after a disaster has occurred.
